SUMMARY

Enthusiastic Frontend Developer with a solid foundation in HTML, CSS, JavaScript, and React. Passionate about creating intuitive and responsive web interfaces that enhance user experience. Eager to apply academic knowledge and hands-on project experience to real-world challenges in a professional environment. Committed to continuous learning and staying updated with the latest web development trends.

EDUCATION

08/2020 - 07/2024 • BE-IT
Marwadi University

EXPERIENCE

01/2024 - 04/2024 • Web Developer Intern
Ahemdabad eSellerHub

Marketing Agencies with cutting-edge software solutions that leverage the full potential of marketplace APIs allowing them to thrive in the dynamic world of e-commerce.

- I used HTML and CSS to create visually appealing and responsive web pages, ensuring they looked great across different devices and screen sizes.
- With jQuery, you added interactive elements like animations, form validations, and dynamic content loading, enhancing user engagement and experience.
- You optimized the website's performance by efficiently organizing your HTML structure, minimizing CSS and jQuery code, and ensuring fast load times for a smooth user experience.

TECH SKILLS

Html Css Javascript React FireBase

PROJECTS

✓ Salon Bliss

Developed a modern and responsive salon website, ensuring a seamless user experience across all devices and screen sizes. a clean and intuitive layout, effectively showcasing the salon's services, which led to improved user engagement and satisfaction.

✓ Calculator

Developed a fully functional calculator using JavaScript, incorporating a clean user interface and essential arithmetic operations, enhancing my understanding of DOM manipulation and event handling.

✓ ShopEase

Designed and implemented a feature-rich eCommerce website using React, integrating user registration, login authentication, and cart functionality. Successfully utilized the FakeStore API for dynamic data fetching and improved user experience through a seamless shopping and checkout process.
